

Yanolja Cloud Solution (YCS) Company Profile

Yanolja Cloud Solution (formerly eZee Technosys) is a global leader in hospitality technology, offering innovative solutions to automate operations seamlessly. Established in 2005, eZee Technosys revolutionised the hospitality industry with cutting-edge technology. In 2019, it became part of Yanolja Group, a South Korean travel-tech unicorn, and was rebranded as Yanolja Cloud Solution to reflect its integration into a global ecosystem.

Today, Yanolja Cloud Solution serves over 33,000 clients across 170+ countries, processing 761 million yearly transactions and empowering 159,000 users with its extensive suite of integrated solutions. These include:

- Cloud Property Management Systems (PMS)
- Restaurant Point-of-Sale (POS) systems
- Online restaurant POS
- Hotel booking engines
- Channel managers
- Guest applications
- Website builders
- Review management tools
- Dynamic Pricing tool
- Hotel Payment Solution

With 650+ integrations and a dedicated workforce of over 430 employees, Yanolja Cloud Solution provides end-to-end hotel and restaurant solutions to address every need of the dynamic hospitality sector. Leveraging cutting-edge technology and a user-centric

approach, YCS aims to streamline operations, enhance guest experiences, and drive business growth for its clients.

Clientele and Reach

Yanolja Cloud Solution's clients span various segments, including hotels, hostels, B&Bs, resorts, restaurants, cafes, and lounges. Notable global partners include brands like Zostel (India), Shahpura Hotels (India), ZEN Rooms (SEA), Muncaster Castle (UK), and more.

Resilience During Challenges

During the COVID-19 pandemic, Yanolja Cloud Solution prioritised innovation over downsizing. Key initiatives included:

- Launching Open API
- Upgrading to eZee Absolute 2.0
- Providing OTA optimisation and revenue management services
- Expanding its offerings, such as eZee Panorama for website building

Vision and Mission

As a trailblazer in hospitality technology, Yanolja Cloud Solution is committed to transforming the industry through innovative cloud-based solutions. By leveraging advanced technology, we aim to redefine the future of hospitality, empowering businesses to scale effortlessly and adapt to dynamic market needs.

About Yanolja Cloud Solution (YCS)

Yanolja Cloud Solution is one of the few hospitality technology providers worldwide offering complete end-to-end solutions for hotels and restaurants. As a subsidiary of the Yanolja Group, it is backed by a travel tech unicorn known for pioneering AI-based hospitality solutions globally. YCS is India's largest hotel technology provider, helping businesses in the hospitality sector scale operations, enhance guest satisfaction, and optimise revenue generation.
